

## Moon and the Stars

By Valerie Nishiguchi

Topaz stars  
stud a  
silky black sky,  
their glowing  
warmth comforting  
the lonely  
night sky.  
The moon,  
a dazzling  
illumination bringing  
joy to the dark.  
Shadows lurk  
down below,  
but the shimmering  
light is a  
constant reminder  
to share the light  
in our lives.
