

Hi! I'm Enkhjin from Mongolia

What is your favorite thing to do with your family? Enkhjin A., age 8, from Mongolia, loves visiting the country with her family and picking wild berries and strawberries.

I do not have any pets, although I really want a puppy. Sometimes we visit the countryside, where I get to see cows, sheep, camels, horses, and goats. In the wintertime, I like to build snowmen there. Here I am with my brother and friend at Turtle Rock in Terelj National Park.

A close-up photograph of a young girl with long dark hair, wearing a pink headband and a pink jacket. She is smiling and holding a small strawberry plant with two ripe red berries and green leaves up to her mouth. The background is a bright, sunlit outdoor area with green grass and trees.

I feel happy when my family spends time together. We enjoy having family home evening and going to church every week. We also read the Book of Mormon and pray together every day. These things help keep my family strong.

In this picture, I'm reading a story to my brother. I like reading a lot! I am in the third grade. I also like mathematics and drawing. One of my classmates is not a member of the Church, but I taught her about the Word of Wisdom and told her to drink milk instead of coffee or tea. I also taught her how to pray to Heavenly Father, since she didn't know. I also invited her to family home evening at my house.

I live with my mom, dad, and two brothers in Ulaanbaatar, the capital of Mongolia. One million people live in our city! We live on the 12th floor of an apartment building.
