ANSWERS (FROM PAGE 27) AN AMBUSH OF... WHAT?: 1G, 2J, 3B, 4F, 5C, 6E, 7H, 8L, 9K, 10A, 11I, 12D. A RIDDLE OF CURELOM PROPORTIONS: Our crafty, Jaredite farmer must carry the curelom across the river more than once. First trip, the curelom. Next, the rabbit. Then he leaves the rabbit on the far bank and brings back the curelom. Now he takes the feed across, leaving the curelom behind. Then the rabbit and feed are on the far side and he simply goes back for the curelom.
