The Creations

I love the creations, big and small—
Winter, spring, summer, and fall.
I love the birds, the fish, and mammals,
From the cool polar bears to the hot desert camels.
I love when it's snowing. I love when it's dry.
I love all the weather and the clouds in the sky.
I love all the people, the Africans and Asians,
The Irish, the English, and the Malaysians.
I love the whole world and all its big nations.
As you can see, I love the creations.
