By President M. Russell Ballard

When I first

went to senior high school, there was one thing I struggled with: when a new subject was introduced, I would find it difficult to understand. One evening I prayed to Heavenly Father to help me understand and overcome that challenge. I had faith, and I was able to understand better. Since then, prayer and faith have been on my to-do list in school and everywhere I go.

Being in a boys school is challenging because of some of the immoral things students do. When that happens, the words of my parents come to my mind: "Don't do something that will drive the Holy Ghost away." I am grateful to my mum, who always reminds me to listen to the Holy Ghost. When we do what is right, God blesses us.
